

## Whitelands Academy Kier Construction | Oxfordshire

Whitelands Academy in Bicester, Oxfordshire, has opened its doors to the local community, offering state-of-the-art learning facilities for over 600 pupils aged 11 to 16 years old.

**Brief:** Whitelands Academy required toilet cubicles that would seamlessly integrate into modern, open-plan unisex washroom areas. These cubicles needed to provide privacy and comfort while reflecting contemporary design aesthetics.

**Solution:** Impact Privacy toilet cubicles, along with PDQ Panel & Frame systems, were the perfect choice for the WC areas, ensuring optimal privacy for users. In the shower and changing areas, Splash Tall cubicles were installed to further enhance privacy and comfort.

### Impact Privacy cubicles:

- Made of High Pressure Laminate a moisture resistant material ideal for dry, medium traffic areas
- Users enjoy peace of mind with floor-to-ceiling doors and divisions, ensuring they have complete privacy in the washroom facilities.

### Splash Tall cubicles:

- Manufactured from Solid Grade Laminate, a water-resistant material to ensure the cubicles will withstand the wet environment in the showers and changing rooms.

### PDQ Panel & Frame:

- 50% quicker to install compared to a traditional timber frame
- Hard wearing and durable, manufactured in water-resistant Solid Grade Laminate
- Arrives on-site pre-assembled with pre-hung, labelled panels for easy installation.
