

Chessington World of Adventures Resort
 Contractor: Smart CI Group Ltd | **Greater London**

Famous for its exciting rides, exotic animals, and family-friendly environment, the resort draws visitors of all ages looking for adventure and enjoyment.

Brief: With thousands of daily visitors, maintaining clean and efficient washrooms was essential at Chessington World of Adventures Resort. The existing facilities were upgraded to ensure durability, hygiene, and a pleasing appearance in the busy environment.

Solution: Smart CI Group instructed TBS Fabrications & TBS Amwell to provide a comprehensive solution tailored to the needs of Chessington World of Adventures Resort. The wide range of products was carefully selected to withstand the rigors of high traffic areas while offering ease of maintenance and a sleek appearance.

Splash cubicles:

- Manufactured from 13mm SGL- for maximum protection against water and vandalism
- Satin Anodised effect Zinc fittings & fixtures including DDA compliant white & red slide indicator bolts with emergency release facility
- Safe, robust and easy to maintain which makes this range perfect for busy environments.

Solid Surface Washtroughs:

- Solid Surface Wash Troughs with a 550mm bed depth in Avalanche, supplied with cut outs for deck mounted taps and soap dispensers
- Hard- wearing, easily repairable and with a consistent finish throughout, the wash troughs ensure longevity even in the busiest environment.

PDQ Panel & Frame:

- Arrived on site pre- assembled reducing installation time and costs by 50% , compared to a traditional timber frame
- Various panel splits to suit the WCs and urinals, with Panel Slider Brackets that allow hinged panels to rise and fall making it easier and safer to access the concealed services.
